

## DYES.....

### NAPHTOL & DIAZO (azoics)

Cold water azoic dyes for natural fibres. Instantaneous colour when naphthol & diazo combine. Colours are earthy & rich - but no turquoise or bright green. All naphthols react with all diazos - but not always very well. Excellent fastness to light & washing. Resistant to bleaching. Can be hand painted or dip dyed. Used in batik work. Simple to use once you understand the process & recipe... Very economical.

Turkey Red Oil (full strength) 500ml 31.00

Caustic soda 500g 6.50

Naphtol Dye Kit 10g each of Naphtol G & AS, Diazo Orange RD, Scarlet R, & Blue GC,  
50ml TRO & full instructions 35.00

Naphtol colour chart

**SOGA 91** 100g 35.00

Produces rich brown colours when used with diazo salts. Can be bleached back to white or a series of shades of browns. Need potassium permanganate & sodium hydros for bleaching back process.

**DRIMALAN F**

For hand painting on silk and wool. Steam fixation. Brilliant, intermixable permanent colours. 50g of dye will make at least 1 litre of dye solution (with addition of acetic acid & lyogen).
